

# Index

- Acquiescence effect, 19
- Action research, 6, 11, 13, 14, 155–166, 168, 176
- Adaptation (of CLI), 11, 224, 233
- Adjacency, 145, 150–151
- Anthropology, 118
- Applicant attribution-reaction theory (AART), 103, 110
- Assumption(s), 6, 8, 18, 19, 31, 34, 38–40, 73, 76, 77, 81, 82, 98, 110, 140, 145, 149, 159, 163, 199, 215, 223, 227, 228, 230
  - hidden, 38, 39
  - interviewer's/researcher's, 4, 7, 9, 11, 27, 28, 36, 39, 56, 72, 78, 81–85, 151, 152, 215, 222, 223, 228
- Attention
  - interviewee's, 7, 18, 35, 49, 51, 77, 80, 81, 84–86, 133, 136, 139, 150, 151, 164, 211, 214, 226, 229, 232
  - interviewer's, 18, 19, 23, 35, 78, 98, 136, 139, 160, 222, 226
- Attributes (category of classically clean questions), 9, 53, 223
- Auditing processes, 180–182
- Authenticity, 10, 18, 19, 63, 77, 193
  - of data, 18
  - of research, 18
- Authority (of the interviewer), 19, 164
- Authorship of data, 17–18, 20, 22, 23, 26–28, 50, 211, 231
- Autism, 102, 105, 119
- Autogenic metaphor, 35, 46
- Backtracking, 54, 55, 93, 160, 164
- Behavioural change, 156, 163
- Behavioural groups, 193, 194, 200
- Behavioural models, 5
- Benefits of CLI, 8, 99, 188, 189, 214, 229–233
- Bias(es), 12, 19, 33, 103, 104, 107, 111, 198, 201, 202, 210, 231
  - in assessment protocols, 103
  - cognitive, 38
  - on data, 7, 38
  - implicit, 103, 104, 109, 111
  - interviewer, 7, 56
  - in questions, 135
- Blending, 32
- Body map, 122–126, 128, 129, 228
- Bracketing, 8, 18, 28, 145, 149, 207, 222, 228
  - 'bracket' assumptions, 18, 28, 145, 149, 207
- Business culture, 180
- Business processes, 184
- Capable model, 127, 128
- Cause and risk analysis, 180, 181
- Cause evaluation, 206
- Chronic disease, 121
- Classically clean questions, 8, 9, 23, 26, 52, 72, 82, 83, 126, 134, 146, 149, 195, 211, 212, 215, 223, 226, 228, 230
- Clean analysis, 72–73
- Clean language (origins of), 4–5
- Clean language interviewing (CLI)
  - benefits, 8, 99, 188, 189, 214, 229–233
  - challenge of cleanly introducing pre-determined interview topic, 71–72
  - challenges for CLI interviewer, 70
  - contextualisation, 224–226
  - deciding salience, 151

- directions for future research, 233
- eliciting metaphor with, 77–78, 83–85, 233
- ethical practice and, 11–13
- ethics of using clean language for research, 69–70
- guiding frameworks, 222–226
- hidden skills of, 145–151
- interviewee's experience of, 35, 47, 85, 92–95, 193
- interviewer's experience of, 95–97, 193
- interview improvements using, 214
- learning about using clean language for interviewing, 68–73
- levels of application, 73
- limitations for interviewee, 229
- limitations for interviewer, 229–230
- as modelling, 11, 13, 45–57, 73, 131–140, 166, 224, 233
- with neurodiverse groups, 111–112
- observations on clean language interviewing process, 80–82
- in serious injury or fatality investigations, 14, 206, 207, 210–211, 215
- themes arising from Part II, 13, 104, 110, 226–229
- visual imagery in, 227–228
- Clean language questions, 8–10, 27, 35, 38–40, 46, 49–52, 55, 72, 76, 78, 81, 84, 126, 136, 144, 157, 164, 168–170, 172, 173, 175, 176, 182, 185, 186, 188, 189, 194, 197, 207, 211–212, 214, 215, 222–223, 226–230
- translating, 228–229
- Cleanness rating, 13, 22–28, 39, 71, 76, 82–84, 86, 106, 223–224, 230, 232, 233
- applied to interview transcript, 24–26
- Clean repeat/recap, 23, 26, 51, 82–84, 134
- Closed question(s), 9, 19, 206
- Coding data, 39, 82, 83, 147–153, 212
- Coding-in-the-moment, 14, 143–153
- Cognitive linguistics, 31, 32, 34, 50
- Cognitive load (on interviewee), 49, 51, 148, 151, 153, 231
- Coherent research strategy based on clean principles, 10, 86, 224
- Compassion, 122–124, 128
- Confirmability, 18, 19
- Conflict resolution, 4, 168–170, 175
- Constructivist, 38
- Content-free codes, 147–149, 152, 153
- Contextualisation (of CLI), 224–226
- Contextually clean (question), 23, 24, 36, 52, 54, 72, 78, 82, 83, 105, 106, 134, 145, 170, 195, 198, 199, 202, 211, 212, 215, 230
- Delivery (of clean questions), 150
- Design (phase of research), 18, 27, 65, 127, 144, 150, 194
- Desired outcome, 109, 147, 148, 157–159, 163, 165, 169, 170, 172, 183
- Direct(ing) attention, 4, 8, 19, 23, 84, 86, 133, 136, 176
- Disability, 102, 109, 110
- invisible, 102
- Diversity and inclusion, 103, 104, 111
- Dravet syndrome, 119–121, 128
- Drawing(s), 19, 22, 27, 64, 69, 75–86, 107, 162, 175, 185, 227, 228, 231
- Eliciting attributes, 199–200
- Eliciting metaphor, 35, 77–80, 83–85, 86, 198, 233
- Eliciting values, 198
- Embodied cognition, 5
- Embodied metaphor, 32, 34
- Emotions, accessing, 36
- Entailments, 21, 33
- Epistemology, epistemological, 6, 27, 38, 84
- Epoché, 8, 18, 224, 231

- Ethics of/ethical standards for interviewing, 64, 229
- Evaluation (feature of leading questions), 19
- Exemplar, 46, 47, 51, 109, 133, 140
- Explicitation, 46
- Explicit description, 48, 49
- Fatality interviews/investigations, 207, 208, 210–211
- Focus group(s), 105–108, 110, 111, 127, 180, 192, 194, 195, 202, 226
- Follow-up interviews, 64–66, 68–70
- Frame (set by a question), 19
- Framing  
     linguistic, 33  
     metaphorical, 32–35
- Grounded theory, 144, 145, 147, 149, 150, 152, 153
- Groupthink, 156, 158, 159, 163–165
- Grove, David, 4, 5, 8, 34, 46, 82, 146, 149, 161, 171, 223
- Images, imagery, 35, 80–82, 84, 85, 95, 146, 156, 158, 161, 166, 192, 194, 198, 226–228
- Implicit bias, 103, 104, 109, 111
- Implicit relationships, 48, 49
- Inclusion, 103, 104, 111
- In-depth interview(s), 11, 12, 194
- Inference, 51, 72, 145, 147–150
- Influence  
     interviewer's, 7, 8, 18, 27, 28, 163, 166, 202  
     of metaphor, 5, 32–34, 38–40, 146
- Inner world (of interviewee), 7, 12, 63–64, 81, 84, 85, 222, 229, 231
- Interpretation, 5, 39, 72, 73, 78, 108, 109, 124, 135, 139, 146, 148–150, 160, 177, 209, 210, 212, 214, 215, 230
- Interpreter, 170–173, 177, 229
- Intervention (by interviewer), 17, 19, 22, 26, 27, 79–83
- Interviewee's experience (of CLI), 35, 47, 85, 92–95, 193
- Interviewer-interviewee relationship/partnership, 21, 34, 35, 81, 93, 99, 210
- Interviewer's experience (of CLI), 95–97, 193
- Interviewing methods, 5, 6, 10, 11, 13, 208
- Interview, protocol(s), 22, 27, 33, 230  
     pick-list, 208–209, 211–212
- Introduced content, 19, 20, 22–24
- Introspection, 36, 38, 49, 51, 55, 229  
     guided/guiding, 7, 48
- ISO 9000, 179, 180
- Journalistic interviews/interviewing, 90, 94, 95, 98, 99
- Laddering, 193, 198, 199
- Leadership development, 76–78, 224
- Leading question(s), 4, 5, 12, 13, 17–28, 34, 39, 56, 75, 82, 84, 187, 207–212, 214, 215, 224, 228  
     mildly leading, 23, 26, 82, 83, 105, 106, 138, 212–214  
     strongly leading, 23–27, 34, 39, 82, 83, 224
- Levels of CLI, 9–11, 224, 230
- Lifeworld (interviewee's), 10, 11, 13, 18, 23, 27, 80, 223
- Limitations of CLI, 72, 229–233
- Location (category of classically clean questions), 9, 171
- Logic (of interviewee's data, metaphors), 23, 24, 36, 72, 160, 222, 223
- Logically clean question, 23
- Logical presupposition, 21, 25, 56

- Management systems auditing (MSA), 179–189
- Market research, 4, 14, 35, 191–202, 228
- Means-End Theory, 193, 194
- Mental model(s), 7, 46–48, 51, 75–86, 136, 140, 145, 160, 227, 231
- Metaphor(s)  
 category of classically clean questions, 9  
 continua of characteristics, 37  
 deliberate-spontaneous, 40  
 descriptive-transformative, 40  
 embodied, 32, 34  
 force, 50  
 of space, spatial, 35, 50, 81, 85, 149  
 stable-variable, 40  
 theories of, 5, 13, 31, 39  
 visual, 13, 79, 193, 198, 201
- Metaphor elicitation, 10, 13, 31, 35, 63, 73, 77–80, 83–85, 132, 191, 196, 198, 233
- Metaphor landscape, 46, 66, 69
- Metaphorical framing (effect), 32–35
- Metaphoric structuring, 50
- Methodological transparency, 28
- Micro-phenomenology, 46
- Model, 10, 14, 34, 36, 46–48, 50–52, 55, 127–129, 132–134, 136, 137, 139, 140, 145–150, 157, 160, 161, 163, 164, 175, 182, 183, 186, 200, 215, 233
- Modelling  
 excellence, 131–140  
 as a methodology, 46, 56, 183, 188  
 phases of, 127, 128  
 real-time, 48–51, 231, 233  
 symbolic, 45, 46, 50–51, 57, 132, 182  
 systemic, 132, 143, 164
- Modelling shared reality (MSR), 156–158, 164–166
- Narrative, 47, 57, 90, 97, 102, 128, 137, 158, 208, 210, 211, 214
- Neurodifferent, neurodivergent, neurodiverse (ND), 13, 14, 102–105, 107–112, 132
- Neurominority, 102, 105
- Neurotypical (NT), 102–105, 107, 109–112
- Neutrality (in conflict through CLI), 167–177
- Nondirective method (Rogerian), 4, 11, 12, 91
- Ontological collapse, 121–122, 128
- Open question(s), 9, 19, 26, 71, 93, 98, 106, 121, 124, 134, 152, 187, 206
- Organisational change, 156, 165, 166, 202, 226
- Pace (of question delivery), 70, 94, 98, 99, 160
- Paraphrasing, 4, 26, 72, 78, 83, 84, 149
- Parcelling out (a sentence), 145, 146, 152
- Participatory action research, 168, 176
- Perceptual reality/experience (interviewee's), 7, 12, 34
- Performance improvement, 132
- Phenomenology/phenomenological research, 7, 8, 17, 18, 22, 63, 224
- Pictures, 35, 135, 136, 156, 180, 196, 198, 202, 231
- Power balance/relations (in the interview), 12, 93, 94
- Presupposition, 19–25, 28, 33, 34, 36, 71, 107, 209  
 logical, 25  
 structural, 21, 56
- Psychological safety, 133
- Psychometrics, 76, 103–105, 107–112
- Psychotherapy, 4–6, 11, 46, 64, 69, 70, 72, 121
- Qualitative  
 interview, 10, 33, 48  
 phases of research, 34, 38–40

- research, 6, 18, 19, 21, 27, 31–40, 48, 153, 193
- Quality assurance, 179, 182
- Question-Behaviour Effect (QBE), 202
- Questioning technique (CLI as a), 10, 13, 70, 73, 222, 224, 230
- Questionnaire, 104, 107
- Questions
- classically clean, 8, 9, 23, 26, 52, 72, 82, 83, 134, 146, 149, 195, 211, 212, 215, 223, 226, 228, 230
  - clean, 8–10, 27, 35, 38–40, 46, 49–52, 55, 72, 76, 78, 81, 84, 126, 136, 144, 157, 164, 168–170, 172, 173, 175, 176, 182, 185, 186, 188, 189, 194, 197, 207, 211–212, 214, 215, 222–223, 226–230
  - closed, 9, 19, 206
  - contextually clean, 23, 24, 36, 52, 54, 72, 78, 82, 83, 105, 106, 134, 145, 170, 195, 198, 199, 202, 211, 212, 215, 230
  - leading, 4, 5, 12, 13, 17–28, 34, 39, 56, 82, 84, 187, 207–212, 214, 215, 224, 228
  - logically clean, 23
  - mildly leading, 23, 26, 82, 83, 105, 106, 138, 212–214
  - open, 9, 19, 26, 71, 93, 98, 106, 121, 124, 134, 152, 187, 206
  - strongly leading, 23–27, 34, 39, 82, 83, 224
  - topically clean, 23
- Rapport, 7, 46, 90, 97, 98, 104, 150, 186, 201, 207, 211, 232
- Recruitment (and selection), 103
- Reflection(s), 13, 26, 38, 39, 54, 65, 71, 84, 85, 90, 91, 111, 143, 144, 153, 165, 222, 223, 227, 230
- Reflexivity (category of classically clean questions), 9
- Reflexivity (researcher), 27, 28, 38, 86
- Relationship (category of classically clean questions), 9
- Research interviewing, 3, 4, 6, 9, 12, 35, 39, 48, 50, 56, 64, 69, 70, 72, 73, 192, 224, 229
- Root cause analysis (RCA), 14, 206–210, 214, 215
- Safety (of interviewee), 206, 211, 215
- Scaling, 68
- Schema, 19, 51, 146, 149, 152, 161
- Self-model(ing), 46, 51, 53, 56, 139, 231
- Semantic primes, 8, 49, 223
- Semi-structured interviews, 10, 39, 159, 207, 230
- Sensitive issues (interviewing about), 12
- Sequence (category of classically clean questions), 9, 49
- Serious injury/fatality investigations, 14, 206–208, 210–215
- Set-up, 64, 157–159, 173
- Situational judgement test (SIT), 103
- Social learning theory (Albert Bandura), 45
- Socially constructed norms, 13, 111
- Source (category of classically clean questions), 9
- Structural mapping, 31
- Suggestibility, 19, 211
