

# INDEX

- A/B testing, 71–72
- Ability, 150
- Academic marketers, 92–93
- Academic researchers, 128
- Adverse technology–consumer interaction (ATCI), 123–126
  - examples, 126
  - pathways of technology optimism and, 124
  - response rates declining to customer surveys, 128–132
  - significance, 127–128
- Agency, 92
- AirBnB, 88–89
- Alexa, 86–87
- Alibaba, 88–89
- Alphabet (Google), 51
- AlphaGo Zero program, 22–23
- Amazon, 2–3, 36, 51, 88–89, 93
  - current business model, 3–4
  - reviews, 47
- Amazon Alexa app, 108
- Amazon Echo, 86, 92–93, 108
- Amazon Go, 6–7
- Amazon.com, 182
- American Association for Public Opinion Research (AAPOR), 129
- Antecedents of perceived deception, 148–154
  - elaboration ability, 151–154
  - elaboration motivation, 150–151
  - initial expectations, 148–150
- Anthropomorphism, 93
- AOL, 3–4
- Apple, 51, 88–89, 106–107
- Apple Watch, 17
- Apps, 107–108
  - age, 105–106
  - App Store, 108
  - AR in, 105
  - monetization, 105–107
  - retailers, 106–107
- Argument quality, 154–155
- ARPANET, 36
- Artificial intelligence (AI), 4, 15, 92, 109–110, 113
  - competency, 123
  - programs, 22–23
- Augmented reality (AR), 107, 112
  - in apps, 105
  - AR View, 107
- Autonomous cars, 108
- Autonomy software, 91–92
- “Autopilot” technologies, 6
- Aversion to cashless payment transactions, 126
- B2B platform, 51
- Banner advertising, 57
- Biased search & analysis, 68–69
- Big Data, 8–9, 38–41, 63–64, 70
  - A/B testing, 71–72
  - benefits in marketing management, 65–66
  - blindness to and falsification of hypotheses, 72–73
  - combining Big Data with lean start-up methodology, 77–79
  - communication, 70
  - confidence, 70–71
  - confirmation, 68–69
  - control, 69–70
  - deceived by Big Data, 66–71
  - hubris, 67–68

- mitigating learning challenges of, 71–76
- and privacy, 45–46
- regularly updating analyses to reveal shifts and trends, 73
- statistical literacy and risk intelligence, 76
- 3Vs of, 69
- transparent presentation of statistical insights, 74–76
- Bionic eye, 25
- Bitcoin, 91–92
- Black Swans event, 69
- Blind spots, 127
- Blockchains, 91–92
- Blurring (*see* Line tightening)
- Brick and mortar, 52–56
- Build-measure-learn loop, 64, 78
- Business model evolution, 64
- Buyer inputs, Internet on, 44–45
- Buyer search, 44–45
