

## ACKNOWLEDGMENTS

We would like to thank all of those who contributed to this volume entitled *Food Security in an Uncertain World: An International Perspective*. This work was made possible through funding provided by the Ben Hill Griffin, Jr. Endowment, and by the National Institute for Food and Agriculture (USDA Multistate Research Project, S-1062). We especially would like to thank Carol Fountain for managing our overall project on food security. We would also like to thank Carol Fountain, H. Carole Schmitz, Carolyn Bradley, Michael Rowin, and Dwayne J. Haynes for their editorial assistance. Without their tireless effort, this project would not have been possible.
