## EDITOR'S PROFILE

**Rajib Shaw** is an associate professor in the Graduate School of Global Environmental Studies of Kyoto University, Japan. He worked closely with the local communities, NGOs, governments, and international organizations, including United Nations, especially in the Asian countries. He is currently the Chair of the United Nations Asia Regional Task Force for Urban Risk Reduction. His research interests are community-based disaster risk management, climate change adaptation, urban risk management, and disaster and environmental education.

**Danai Thaitakoo** is a lecturer in the Department of Landscape Architecture, Chulalongkorn University, Bangkok, Thailand. His research interest is in the field of landscape and urban ecology with an emphasis on landscape changes and urbanization focusing on urban–rural intermixed patterns and urban–rural interactions and changes, and the dynamics of urban–agricultural fringe and sustainability. His current research is focusing on hydro-ecology of landscape and urbanization, integrated water systems and human ecosystem, and resilience and adaptability of landscape and humans.
